

## BEGINNER2. LESSON #20. WHAT DO I KNOW ?

**Lesson 20 of Beginner 2 ! Already ! You are well-advanced in French now !!!  
What did we see since lesson 10 ?**

These lessons were for most of them rehearsal lessons with only a few points of grammar. They allowed you to follow Marie and Jean's adventures and by listening to them to familiarize yourself with French sentences.

In these lessons we meet a **lot of new vocabulary** : some of the human body parts, the seasons, the mathematics vocabulary.

You also discovered **useful expressions** as *avoir besoin de* and *ne...plus*.

We spoke about a more formal and correct way to **ask questions** by inverting subject and verb and sometimes repeating subject with a pronoun.

And we met for the first time the future tense with **the near future** which is very useful in everyday life.

Next ten lessons will be dedicated to the future tense and the preparation of a really important event : Christmas.
